## Foundation day at GBS

3rd Sept at GBS is an important day as on this day in 2007 GBS formally started functioning with the students of 1st batch entering then unnamed Athens class which was declared open by a child of less than a year. The class later got named as Athens once the 1st Galacto in 2008 March was successfully conducted. GBS has come a long way since then in last 8 years with 6 batches of over 500 students keeping faith and the faith continuing as 7th and newly joined 8th batch coming in full.

Institutions are built by the people and at GBS lot of people( management, teaching, admin, sub-staff and the students) have given their time with dedication, reverence, commitment and enthusiasm. On this day we renew our pledge to take GBS to the next level and build a strong institution.
