Experience of North India Trip 2013

.....By Students of Industrial committee

It was really an amazing fun experience for all of us, the tour was planned out for 10 Days in the month of May from 16th to 25th.

The preparation started for this trip in the month of Feb, The Industrial coordinators worked effectively under guidance of Prof. Kiran Ambekar [Industrial Tour coordinator]. In the beginning we faced the problem in deciding the tour location, because we had 3 options, 1] Kolkatta WB 2] Gujarat & 3] Delhi students.

Finally students ended up selecting Delhi belt which covered places Agra, Amritsar, Kulu Manali. During the trip everything went good as per the plan, initially we have visited Delhi and unfortunately we could not spend sufficient time, it is due to time shortage, so there students were bit sad. Due to busy and tight schedule all were fully tired of travelling in bus.

All four places that is Delhi, Amritsar, Manali, Agra – were covered. Overall trip was good and all of us enjoyed a lot, especially Kulu Manali was fantastic for all of us and we had good experience.

Here is the Glimpses of the memorable tour.
